**About the Program:** Master Plannery is a technology, engineering, construction, manufacturing, and financial company. It is the Innovation imbued with compassion to embrace all living creatures and the whole of nature and its beauty that distinguishes Master Plannery from the rest of the world.

More than six decades of a strong, customer-focused approach and the continuous quest for the technology and building methods have enabled it to attain and sustain leadership in all its major lines of the industry.

Master Plannery cutting edge capabilities covering the basic principles of construction and services extend to large industrial and infrastructure projects from concept to commissioning.

Master Plannery believes that progress must be achieved in harmony with the environment. A commitment to community welfare and environmental protection are an integral part of the corporate vision

During the visit, live demonstration of different works carried out in master Plannery has been shown to the students for better understanding of the concepts of construction. The strength and its stability of the structure to carry the loads was demonstrated. During the visit the students were also told about the importance of sustainable practices in construction with technology which ensures high quality at an affordable price and low impact on environment. The resource person had also explained the students about CONCOOD, which is the name given for concrete that looks like wood. Concood is a water and fire resistance, termite proof, strong, durable and above all economical. Overall the industrial visit was an eye opener for the budding civil engineering students.

**Objectives:** The program INDUSTRIAL VISIT TO MATER PLANNERY PUTTUR
