The NSS unit of AJIET, comprising volunteers from the Computer Science & Engineering and Civil Engineering departments, organized a "Beach Cleaning" Abhiyan at Thannirbhavi Beach on Friday, January 12, 2023. The objective was not only to ensure a beautiful coastline but also to help maintain a healthy marine ecosystem.

Around 57 active NSS volunteers from the Computer Science & Engineering and Civil Engineering departments participated in cleaning and collecting garbage along the beach. They also engaged with visitors and the public, encouraging them to maintain cleanliness and avoid using plastic items, which were the major source of the waste collected.

The collected waste was then handed over to the waste segregation team of the Mangalore City Corporation, ensuring that it would be processed and disposed of responsibly. This collaboration highlights the importance of local governmental support in environmental initiatives and underscores the effectiveness of coordinated efforts between educational institutions and civic bodies.

In addition to the physical cleanup, the drive also served as an educational experience for the volunteers. They learned about the environmental impact of waste, particularly plastics, on marine life and the broader ecosystem. This firsthand experience underscored the critical need for sustainable practices and the reduction of single-use plastics.

The cleanliness drive at Thanniru bavi Beach was not just an exercise in waste collection; it was a powerful demonstration of community spirit and environmental stewardship. The NSS volunteers of AJIET have set a commendable example, showing how collective action can lead to meaningful change. Their efforts not only improved the local environment but also raised awareness among beachgoers about the importance of keeping public spaces clean.

The event concluded with a sense of accomplishment and a renewed commitment to continue such initiatives in the future. The NSS unit of AJIET looks forward to organizing more events
