3.5.1. Number of MoUs, collaborations/linkages for Faculty exchange, Student exchange, internship, field trip, on-the-job training, research and other academic activities during the last five years.

MoU is the agreement on which tech industries & academic institutes or two parties meet to sign the legal document for the benefits & welfare of both. Here agreement was done for many purposes like faculty development program, Research & Development program, to get industrial knowledge, university student's industrial visits, Internships & research.

The purpose of College MoU with Industry is to minimize the gap between learning and career opportunity. The industry has many new technology requirements, so industry-academic interaction plays a vital role in the placement support and career growth for students.
