

**Technical talk on "Impact of Artificial Intelligence & Data Science"**

<b>Date</b>	<b>13-02-2021</b>
<b>No. of participants</b>	<b>93</b>
<b>Resource Person</b>	<b>Dr. Jose Alex Mathew, Professor, SIT.</b>

**Report:**

The technical talk on "Impact of Artificial Intelligence & Data Science" was conducted to explore the profound effects of these technologies on various industries, society, and the future of work. The session was led by Dr. Jose Alex Mathew, a renowned expert in AI and Data Science, who shared his insights and research findings with the audience.

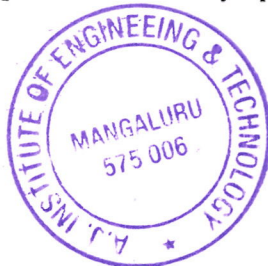

**Objectives of the Talk**

- 1. Understanding AI and Data Science:** To provide a comprehensive overview of Artificial Intelligence (AI) and Data Science, including their definitions, key concepts, and applications.
- 2. Exploring Real-World Applications:** To discuss how AI and Data Science are being applied in different industries and the transformative impact they are having.
- 3. Future Trends and Challenges:** To examine the future trends in AI and Data Science and the challenges that need to be addressed.
- 4. Ethical and Societal Implications:** To consider the ethical and societal implications of AI and Data Science, including privacy concerns and job displacement.

**Key Highlights of the Talk**

**Introduction to AI and Data Science**

- 5. Definitions and Key Concepts:** Dr. Rao began with a detailed explanation of AI and Data Science, clarifying common misconceptions and highlighting the differences between the two fields.
- 6. Historical Context:** He provided a brief history of AI and Data Science, tracing their evolution from early theoretical concepts to modern-day applications.
