

AJ INSTITUTE OF ENGINEERING & TECHNOLOGY

A Unit of Laxmi Memorial Education Trust®

(Approved by AICTE, New Delhi, Affiliated to Visvesvaraya Technological University, Belgaavi)

Event Name	Alumni Interaction Series
Resource person	Mr. Suhan Batch 2016-20, Infosys
Organised by	Alumni Association
Date	27.05.2021
No. of Participants	40

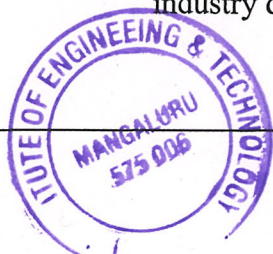

About the Event

The aim of the alumni interaction was to create awareness about the latest technologies in the software industry and the importance of software languages for electronics students.

Suhan shared insights from his four years at AJIET, emphasizing the value of certification courses in enhancing technical skills. He discussed his experiences during Infosys training and the various software languages he learned. Suhan also highlighted the importance of selecting appropriate elective subjects and how these choices can impact placement opportunities. Additionally, he spoke about the various projects and internships he undertook during his engineering studies, underscoring their role in his professional development.

Objectives

- To raise awareness among electronics students about the latest technologies in the software industry and the significance of learning software languages.
- To emphasize the value of certification courses in enhancing students' technical skills and improving their employability.
- To share insights on the importance of selecting appropriate elective subjects and how these choices can influence placement opportunities.
- To provide students with practical knowledge gained from industry training experiences, specifically in software languages.
- To highlight the role of projects and internships in professional development and how they contribute to successful career outcomes.
- To inspire students to actively engage in skill-building activities that align with current industry demands.

Outcomes

- Electronics students gained awareness of the latest technologies in the software industry and understood the importance of mastering software languages.
- Students recognized the value of certification courses in enhancing their technical skills and increasing their employability.
- Students learned how to strategically select elective subjects to maximize their placement opportunities.
- Students benefited from practical insights into industry training experiences, particularly in learning software languages.
- Students understood the significant role that projects and internships play in their professional development and career success.
- Students were motivated to engage in activities that build relevant skills in line with current industry trends.
