

<b>Event Name</b>	<b>Alumni Interaction Series</b>
<b>Resource person</b>	Ms. Meghana Shetty Batch 2016-20, Ribbons Communications
<b>Organised by</b>	Alumni Association
<b>Date</b>	19.02.2022
<b>No. of Participants</b>	40

## About the Event

The aim of the alumni interaction was to raise awareness about the latest industry technologies and prepare students to adapt to these advancements. Meghana Shetty shared her experiences as both a student and an employee with second-year ECE students. Her presentation began by exploring various career options available to electronics students. She emphasized the importance of each ECE subject and the type of preparation needed for interviews. Meghana also discussed the significance of mini-projects, larger projects, and internships in personal and professional development. Students engaged with Meghana on preparation strategies for hardware and software companies and sought advice on selecting appropriate companies for internships.

## Objectives

- To raise awareness among students about the latest industry technologies and prepare them to adapt to these advancements.
- To provide insights into various career options available to electronics students through an experienced alumni perspective.
- To emphasize the importance of academic subjects, mini-projects, larger projects, and internships in personal and professional development.
- To guide students on effective preparation strategies for interviews in both hardware and software companies.
- To assist students in selecting appropriate companies for internships based on informed advice from an industry professional.
