

A J INSTITUTE OF ENGINEERING AND TECHNOLOGY

NH-66, Kottara Chowki, Mangaluru -575006, Karnataka, INDIA

A Unit of Laxmi Memorial Education Trust®

(Approved by AICTE, New Delhi. Affiliated to Visveswaraya Technological University, Belagavi)

09.	NAME OF THE EVENT	Alumni Talk - Improve Your Coding Skills
	DATE	07-01-2023
	ALUMNI RESOURCE PERSON	Mr. Kannan Assistant System Engineer, TCS

About the Program:

Mr. Kannan discussed several key strategies for improving coding skills. Consistent practice is essential; dedicating regular time to write code and using platforms like Leet Code, Hacker Rank, or Code wars for diverse challenges can enhance problem-solving abilities. Learning new programming languages and frameworks broadens understanding and introduces various approaches to problem-solving. For instance, Python offers simple syntax and powerful libraries, while JavaScript is crucial for front-end development. A strong grasp of algorithms and data structures is fundamental for efficient coding; studying these concepts through resources like "Introduction to Algorithms" and online courses is vital. Working on real projects, from personal websites to contributing to open-source projects, solidifies knowledge and provides practical experience. Additionally, participating in coding competitions, such as those by Code forces or Google Code Jam, challenges creativity and problem-solving under time constraints.
