Green Building Management Policy

DISCLAIMER – This policy has been prepared by team 'Greenvio Solutions' based on audit. The inferences are used as a base in formulating the policy. The implementation is dependent on Institutional capabilities. Thus, presented plan of action is a feasible document to be practiced by the stakeholders.

The said policy as a 'Plan of Action' is applicable for **academic year 2022-2023 and 2023-24.**

- **Social practices through green management** - Continue the number of practical and virtual activities under social welfare and community development initiatives.
- **Water Management** - The water conservation measures of water efficient appliances, improving documentation of existing facilities shall be implemented within campus.
- Improve the waste management practices and incorporate composting at source of the Institute
- Join hands with local municipal corporations on local, regional, national and international level to develop substantial programmes for **community development.**
- Increase the **environmental interventions** in the educational programmes and document-reflect-collect first hand review through multiple platforms consistently.
- Educate the students to undertaken initiatives for the **socio-environmental welfare.**
